

Property Management Software

KEY BENEFITS

THE RIGHT INFORMATION AT THE RIGHT TIME

Customisable dashboard and summary screens, 'slicing and dicing' of data and reporting, flexible drill-down capabilities, alert set-ups, document management and version control are standard features of the Concerto Asset Management solution.

CENTRALISED DATA MANAGEMENT

Concerto provides a single, consolidated up to date view of the entire asset portfolio with supporting documentation and functionality under the same roof – no plug-ins or external software required

COLLABORATE

Benefit from advanced, easy to use collaborative tools accessible on any device, anywhere, for instant data sharing. Mobile workers seamlessly interact.

INTEGRATE & IMPROVE EFFICIENCY

Seamlessly link with the FM Help Desk and the Concerto Project and Performance Management solution for 360-degree full life-cycle asset management. By also integrating with your finance system, Concerto acts as a central hub for all your asset data: asset, building block, room or equipment and seamlessly update the online system. The uses for this software are endless.

MAKE INFORMED DECISIONS

Benefit from flexible and intelligent, automated reporting capabilities. Generate strategic reports required to aid key, asset related decisions

KEEP ABREAST OF PERFORMANCE

Effectively manage acquisition of a property, track any revenue or capital spend, and report into an IFRS compliant capital accounting component and feed into your finance solution

ENJOY KNOCK-ON EFFECTS

Experience additional efficiency improvements in related departments, such as H&S, technical services and planned & preventative maintenance

IMPROVE PRODUCTIVITY FOR EFFICIENCY SAVINGS

The Concerto software facilitates improvements in workforce productivity and quality levels of organisations' 'back office' functions involved in managing assets. Realise the associated cost savings

ON-GOING SUPPORT

Know that your requirements and situations are understood exactly. Customers always deal directly with the developer, not an intermediary, ensuring accuracy, speed and high levels of understanding and mutual trust

FUTURE-PROOF YOUR SOLUTION

Concerto keep ahead of the curve with regular updates. Have a say in the future development of your software package and know that it is a long term investment

PROVEN RESULTS

Concerto keep ahead of the curve with regular updates. Have a say in the future development of your software package and know that it is a long term investment
